# SBT beam load cell

# product description

The SBT is a high-accuracy, low-profile beam load cell designed for on-board vehicle weighing applications.

Constructed from tough alloy steel and sealed with the most durable potting compound, it will withstand the harsh environments associated with all types of heavy duty vehicles. The SBT is particularly simple to mount under vehicle and trailer bodies. The overall size and strength of the SBT ensures that is can withstand significant loads well beyond its rated capacity.

The SBT is also available with equivalent Unified mounting holes and an alternate cable, please see other datasheet for SBT-B for further details.

## applications

Various on-board vehicle weighing applications including, tipper trucks and tipping trailers, bulk tanker vehicles, agricultural trailers, waste collection vehicles and general agricultural machinery.

# key features

Tool steel construction

Environmentally sealed by potting to IP68

Electroless nickel-plated finish

Designed for on-board vehicle weighing

Capacity of 10,000kg

#### accessories

M24x2.0-6H mounting bolts

Compatible range of electronics

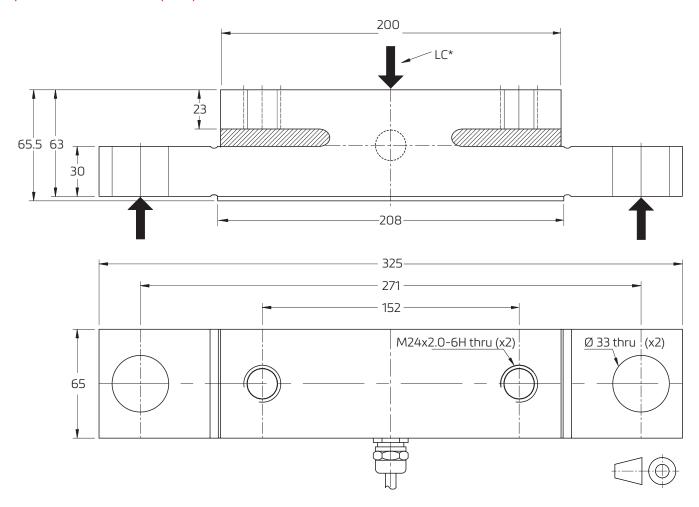

# specifications

| Specifications  |                    |                           |
|---|--------------------|---------------------------|
| Maximum capacity (E <sub>max</sub> )                              | kg                 | 10,000                    |
| Accuracy class  | -                  | GP                        |
| Temperature effect on minimum dead load output (TC <sub>0</sub> ) | %*RO/10°C          | ± 0.0400                  |
| Temperature effect on sensitivity (TC <sub>RO</sub> )             | %*RO/10°C          | ± 0.0200                  |
| Combined error  | %*RO               | ± 1.0000                  |
| Creep error (30 minutes) / DR                                     | %*RO               | ± 0.0600                  |
| Rated Output (RO)   | mV/V               | 0.82 ± 10%                |
| Zero balance  | %*RO               | ± 5                       |
| Excitation voltage  | V                  | 515                       |
| Input resistance (R <sub>LC</sub> )                               | Ω                  | 385 ± 20                  |
| Output resistance (R <sub>out</sub> )                             | Ω                  | 350 ± 3                   |
| Insulation resistance (100 V DC)                                  | ΜΩ                 | ≥ 5,000                   |
| Safe load limit (E <sub>lim</sub> )                               | %*E <sub>max</sub> | 150                       |
| Ultimate load   | %*E <sub>max</sub> | 300                       |
| Safe side load  | %*E <sub>max</sub> | 100                       |
| Compensated temperature range                                     | °C                 | -10+40                    |
| Operating temperature range                                       | °C                 | -30+70                    |
| Load cell material  | -                  | tool steel                |
| Surface finish  | -                  | electroless nickel-plated |
| Sealing   | -                  | potted                    |
| Protection according EN 60 529                                    | -                  | IP68                      |
| Packet weight   | kg                 | 8.5                       |

# product dimensions (mm)

Recommended torque for mounting bolts: 1,030...1,140Nm. Torque value assumes oiled threads. Note: Holes, recesses, cutouts and radii are identical on both sides of the load cell. LC\* - Load centre

# wiring

The load cell is provided with unshielded moulded 4-pin M12 male connector (AWG 24). Cable jacket polyurethane.

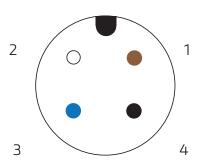

Cable length: 7.5m Longer or shorter on request

Cable diameter: 5.5mm

Optional: Shielded 4 core cable with wire ends earthed to the load cell body is available on request

| pin colour  | function  |
|-------------|-----------|
| piri coloui | TUTICUOTI |

| 1. brown | + Excitation |
|----------|--------------|
| 2. white | + Signal     |
| 3. blue  | - Excitation |
| 4. black | - Signal     |

Specifications and dimensions are subject to change without notice.
